PERSONAL PROJECTS

FrontendFolks (07/2020 - 08/2020) ↗
- I didn't find a lot blogs of Frontend Engineers sharing their interview experience so I quickly made this to make it easier for them to quickly add their experiences. The experience submission form is design in such a way a that all components can be separately queried later like questions asked, compensation, role-wise experience etc.

Twovc (03/2020 - 03/2020) ↗
- A utility to package to over-ride TailwindCSS class names, so that they can work according to their HTML order.

React Notifi (02/2020 - 02/2020) ↗
- Tiny (1.4kb) toast library for react notifications with animations and stack-able toast's feature.

Mandawa Heritage Tours (07/2019 - 07/2019) ↗
- Another weekend project using Gatsby, I built for my brother's local tour and travel company.

Typing Ninja (10/2018 - 11/2018) ↗
- A minimal typing site I build myself as my first JavaScript project.

Twitter Clone (10/2018 - 11/2018) ↗
- Made Twitter clone with GraphQL and Prisma.

ACHIEVEMENTS

Responsive Web Design (06/2018 - 07/2018) ↗

JavaScript Algorithms and Data Sturcture (08/2018 - 10/2018) ↗
